Hendrikus Organics

Seasons 8-0-4

The spreader settings below need to be adjusted to each applicator. Your pace will increase or decrease the amount of fertilizer applied. Measure your grass area to determine square footage of turf. Then apply the fertilizer and adjust the settings up or down based on your actual coverage to match the settings listed below.

Extra fertilizer will not streak your yard or cause a huge growth spurt. You will get a consistent release with less excess grass and a healthier lawn.
